

Red Streak 2"OS **GT** Resaws with Razor Sharp **G**round **T**ooth Technology

Simonds 2"OverSize width Hard Back saws are manufactured with state of the art manufacturing methods.

- Our full form grinding process** produces exceptionally sharp teeth with incredible tooth height consistency. Tooth height consistency results in every tooth "doing its share of the work" and increases blade life.
- Oversize width**, 2-1/8", provides added value delivering straight and true cuts at high feed speeds.
- Bright Body saws** – body of saw is hardened and tempered in a vacuum atmosphere furnaces to retain bright body finish while providing optimum toughness and rigidity.
- Hardened Cutting Edge** – Our tooth tips receive a secondary hardening and tempering process to increase cutting hardness for superior edge holding ability.

Available in three sizes!
